

## Florida Organic Farm Spotlight

# Blumenberry Farms

---

Promoting organic consumption fresh from Florida.

Mitch Blumenthal acquired a ten-acre organic blueberry farm in 1995. As he tended to his Sarasota crop, he began to explore heirloom row crops, blackberries, and other unusual items. Soon, the ten acres of blueberries had evolved into ten acres of diverse, beautiful crops.

Recent harvests have included okra, snow peas, bull's blood beets, baby corn, popcorn, persimmons, herbs, and sugarcane. This serene, lush farm nourishes the body and soul.
